MATERIAL SAFETY DATA SHEET

1. Identification

Product: AQUAFLEX WB-200 series water-based flexographic ink. Use: printing on kraft and test liner for corrugated packaging. Supplier of the ink: Varnika Inks and Coatings, Hosur. Document held and issued to customers by Sri Balaji Corrugators.

2. Hazard identification

Not classified as hazardous under GHS. May cause mild skin irritation on prolonged contact.

3. Composition

Water 45 to 60%; acrylic polymer emulsion 20 to 30%; organic and inorganic pigments 10 to 18%; additives below 5%. Free of mineral oil, heavy-metal pigments, phthalate plasticisers, benzophenone and 4-methylbenzophenone.

4. First aid

Eyes: rinse with water for 15 minutes. Skin: wash with soap and water. Ingestion: rinse mouth and seek medical advice.

5. Fire fighting

Non-flammable water-based product. Use extinguishing media suited to the surrounding fire.

7. Handling and storage

Store between 5 and 35 °C in closed containers. Shelf life 12 months.

9. Physical and chemical properties

Liquid; pH 8.5 to 9.5; viscosity 20 to 25 s (Zahn cup 2); VOC content below 2%.

15. Regulatory information: food-contact packaging

Formulated in accordance with the EuPIA Guideline on Printing Inks applied to the non-food-contact surface of food packaging and the EuPIA Good Manufacturing Practice. All intentionally added substances are listed in Swiss Ordinance SR 817.023.21, Annex 10. Conforms to IS 15495:2020, printing ink for food packaging, code of practice.

16. Other information

Revision 4, dated 3 March 2026.

Fabricated demonstration document for the Quoteline prototype. Not a real certificate or data sheet.
